Crestline takes 25-3 mark to state

'Dogs match 1981 team's feat

By ANTHONY TIERI
The Press Register

That team left a legacy. Now it's time for another.

When the 1981 Crestline football team won its first state championship, the school was a small, rural community of about 1,000 people and we were told how special it was.

Well, here's another year in which the dogs have won the title. This time, the school has grown to about 1,500 students and we're told how special it is.

The dogs' achievement is of note because just two years ago, the school had to close its doors due to financial difficulties. The town of Crestline, located in the heart of the state's oil fields, had suffered a major decline in population and revenue.

But the dogs' success has brought hope to the community. The school is now fully funded and the town is experiencing a resurgence of activity.

The dogs' victory is a testament to the hard work and dedication of the players and coaches. It's also a reminder that even in the face of adversity, a team can achieve greatness.

There are six good schools in the state, all taught by colored teachers. The largest school has about 100 students, and the others have from 20 to 50. The largest is at Piney Woods, where there are 1000 students.
